

SAE Washington DC Section

Is Proud to Host a Night With

CHARLES H. JENCKES
Engine Development Engineer
Dale Earnhardt, Inc.

**Evolution not Revolution:
Engine Development in a NASCAR
Nextel Cup Engine Shop**

Join the SAE Washington DC section, members of the George Washington University 's ASME student section, and the GW Department of Mechanical and Aerospace Engineering for a special lecture with one of NASCAR's leading engineers.

When: Wednesday, March 7, 2007, at 7:00 pm-9:00pm; Happy Hour – 5:30pm-6:45pm

Where: The George Washington University's Jack Morton Auditorium (in the MPA Building located on the corner of 21st and H Streets at 805 21st Street, NW. The Jack Morton Auditorium is located on the first floor of the MPA Building. Metro stop: Foggy Bottom).

*Department of Mechanical and Aerospace Engineering
The George Washington University*

Why: If you like NASCAR, are interested in Motorsports, or are just plain interested in things that go fast, you won't want to miss this event!! Charles Jenckes will provide background and a technical overview of a NASCAR Nextel Cup Engine; the development process, and will offer a virtual tour of Dale Earnhardt, Inc.'s Engine Department. Come and get a unique look at NASCAR through the eyes of one of the industry's leading Motorsport engineers.

Details: An informal happy hour will commence at TGI Fridays (2100 Pennsylvania Ave, NW) from 5:30pm-6:45pm. Following the gathering, attendees will walk 1 block to the Jack Morton Auditorium.

RSVP: via the website at www.washingtondcsae.org or by email to Doug Skorupski, SAE DC Section Chair, at skorupski_doug@bah.com
